Product Description

The Light Dome 150 is a 150cm (59in) Bowens Mount Quick-Setup Circular Softbox. Its substantial surface area makes it ideal for high-powered Bowens Mount LEDs, such as the Aputure LS 600d Pro or LS 600x Pro.

Its 32-sided quick-setup build transforms a hard point-source light into a soft source with perfectly circular reflections in one minute.

The Light Dome 150 also includes two diffusion strengths to allow users to fine tune their intensity and light quality.

Target Audience

The Light Dome 150 is ideal for cinematographers and photographers who need to cover a wide area. The 150cm diameter produces a soft light that can easily wrap around a single subject or evenly illuminate a large group.
